## Group Introduction

### 集团简介

新华昌集团有限公司是一家集制造、经贸、运输、开发为一体的民营企业集团。主要产品与服务包括国际标准集装箱、特种集装箱、罐式集装箱和集装箱运输等。集团目前拥有江苏常州、浙江宁波、浙江嘉兴、山东青岛和天津五大生产基地。集团目前拥有5条国际标准集装箱生产线和4条特种干货集装箱、罐式集装箱生产线，形成标准集装箱120万TEU/年、特种集装箱10万台/年的生产能力。全球市场占有率超16%。

二十多年以来，新华昌集团一如既往通过提升管理、吸引人才、提高生产效率、提升以集装箱为主产品的品质和竞争力，创造更高的客户信赖，强化和持续提升集装箱产品的市场份额和地位。我们将继续秉承合作共赢的原则，坚守诚信的精神和价值创造的理念，努力成为顾客的最佳合作伙伴。

CXIC Group is a private enterprise group integrating manufacturing, trade, transportation, and development. Its main products and services include international standard containers, special containers, tank containers, and container transportation. The group currently has five major production bases in Jiangsu Changzhou, Zhejiang Ningbo, Zhejiang Jiaxing, Shandong Qingdao, and Tianjin. It currently has 5 international standard container production lines and 4 special dry cargo container and tank container production lines, forming a production capacity of 1.2 million TEU/year for standard containers and 100,000 units/year for special containers. Its global market share exceeds 16%.

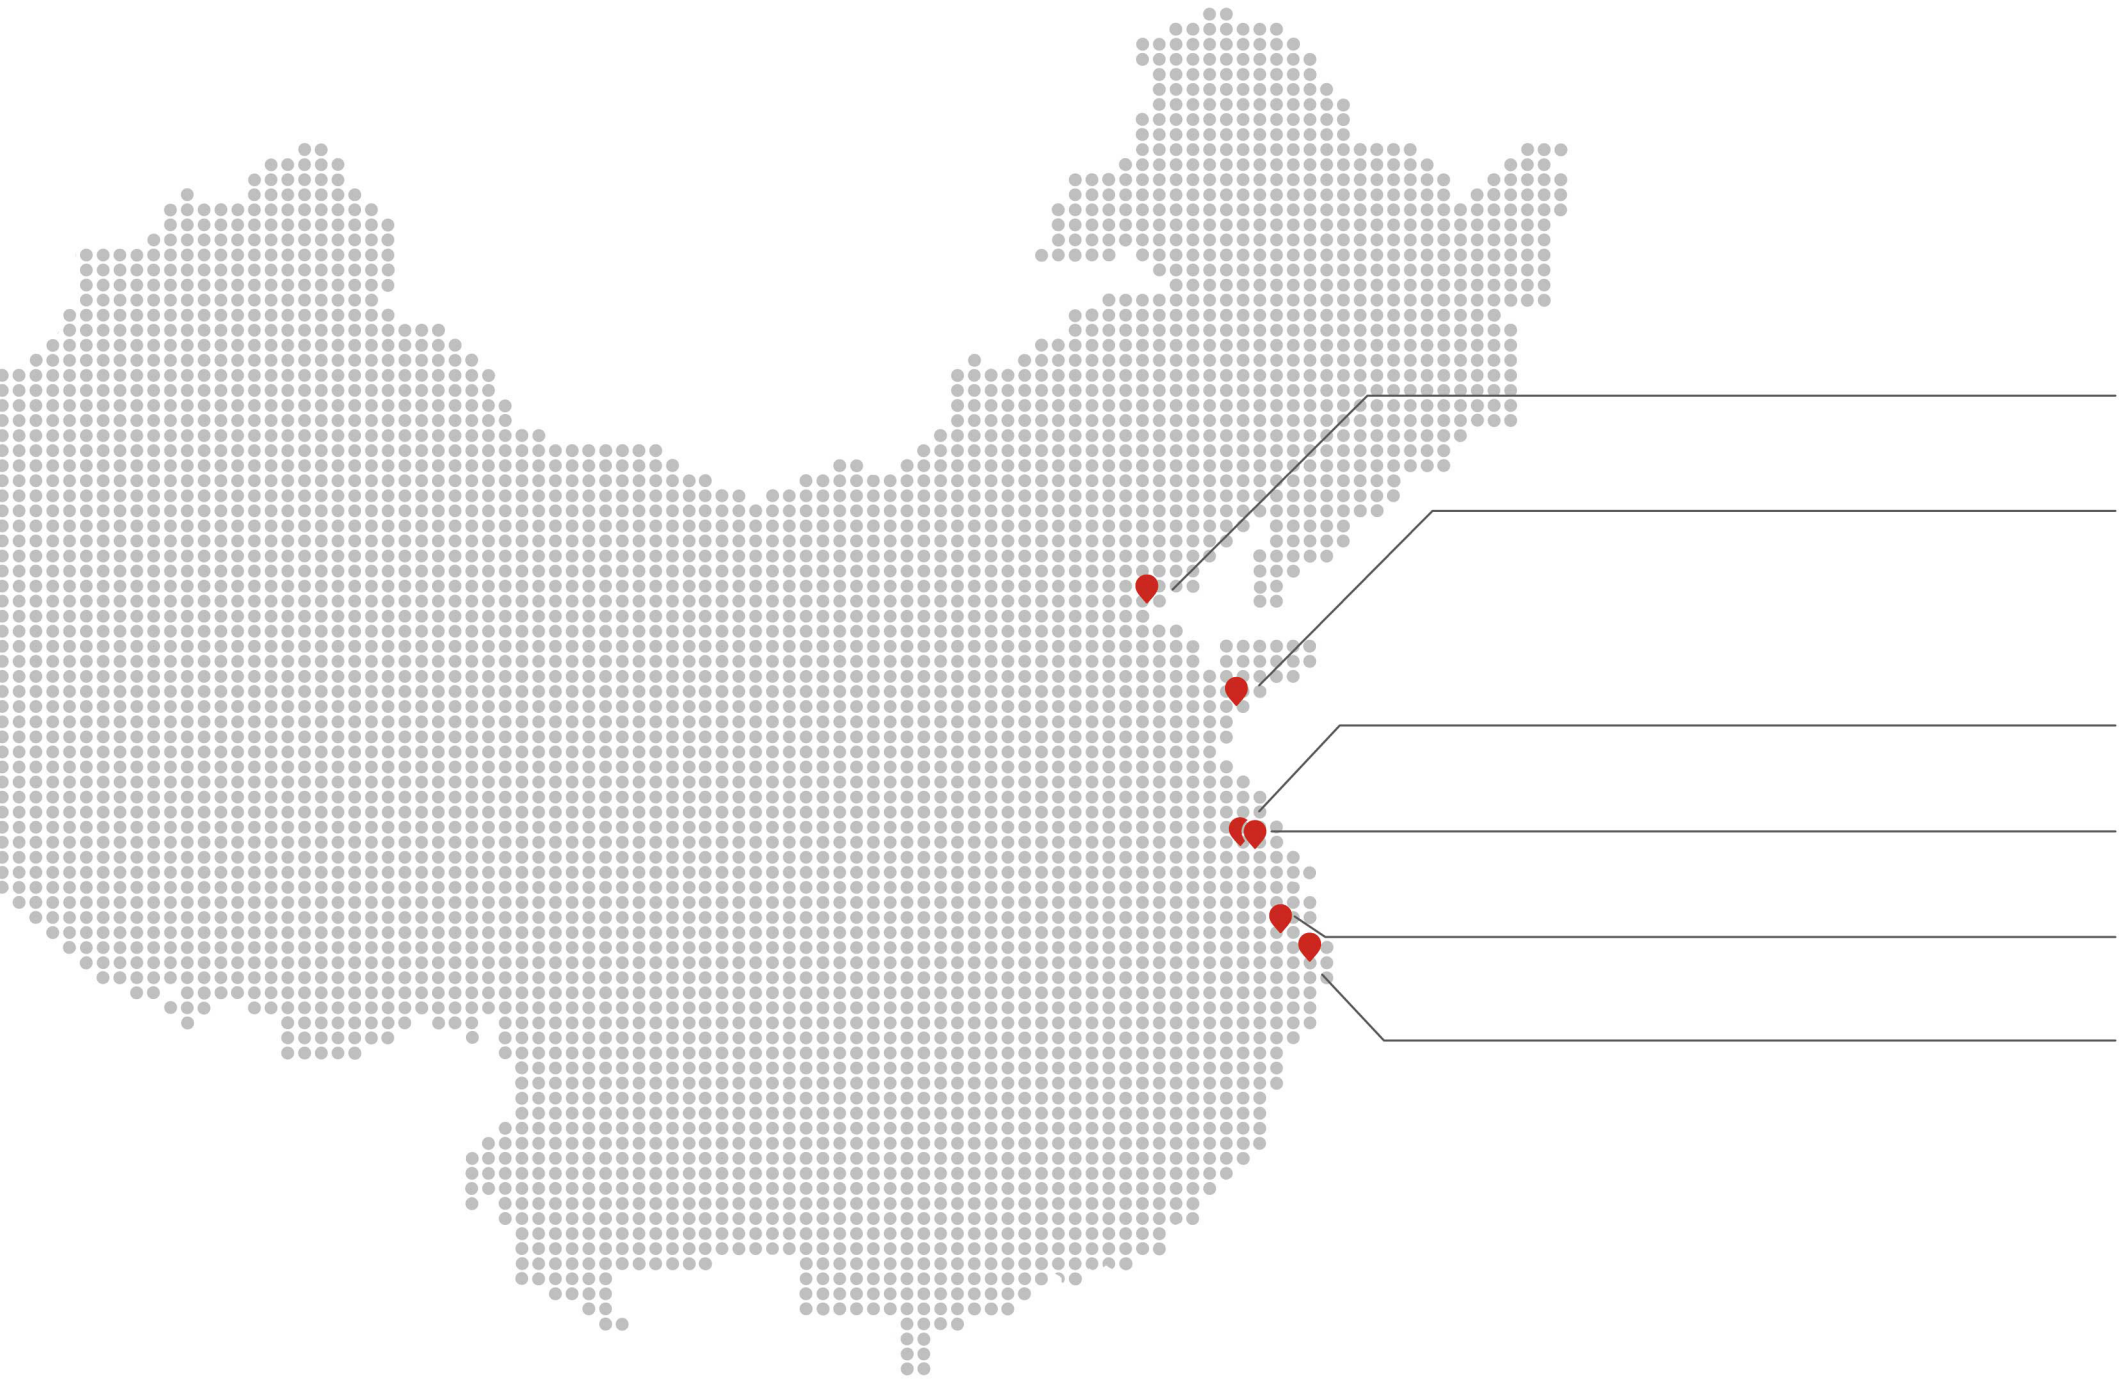

For over two decades, CXIC Group has consistently improved management, attracted talent, increased production efficiency, and enhanced the quality and competitiveness of its container products to create greater customer trust. It aims to strengthen and continuously improve the market share and position of its container products. The company will continue to uphold the principles of win-win cooperation, integrity, and value creation, striving to be the best partner for its customers.

## CHANGZHOU XINHUACHANG INTERNATIONAL CONTAINERS CO., LTD. (CXIC)

常州新华昌国际集装箱有限公司（常州新华昌）是新华昌集下第一家专业集装箱生产企业，公司于1994年5月正式成立。公司以生产各种国际海运干货集装箱为主，同时也生产诸如45英尺箱、开顶箱、以及散货箱等特种干货集装箱。公司拥有一现代化的集装箱生产流水线，具备250,000TEU的年生产能力。

常州新华昌位于江苏省常州市，毗邻中国最大的经济中心和港口城市上海，地理位置优越，交通便捷。其交箱点不仅覆盖上海，还包括其他经济高速发展的长江三角洲港口，如南京、镇江、张家港、南通以及太仓等地。

作为中国最早的集装箱制造厂之一，常州新华昌一贯致力于生产设备和工作的不断改进和创新。从1996年起，公司每年均斥资对生产进行技术改造，陆续引进各类现代化生产装备，使产品质量得到了有力的保证。2018年，按照集装箱行业的新工艺、新装备，投资3.5亿元新建了生产车间和辅助设施，并于2019年3月31日正式投产。新的生产线实现了预处理和冷作加工的精细自动化、并提高了焊接和油漆线的自动化、智能化水平，同时，为提升企业形象并给客户充分的信心，常州新华昌顺利通过BVQI关于ISO9001的质量保证体系之外,另外，加上新华昌集团内部数转网络系统的建立以及ERP和OA先进管理软件的应用，确保了公司的经营管理运作能够以提高产品质量和提升客户服务为目标，持续有效的进行。

通过多年来不断地完善和努力，公司凭借其优秀的产品质量和灵活妥帖的服务赢得了许多客户的青睐和信任。公司持“服务客户，满意客户”的经营理念，使得常州新华昌在强手如林的集装箱行业中脱颖而出。

Changzhou Xinhua Chang International Containers Co., Ltd. (CXIC) is the first professional and modernized international fireight container manufacturing plant under CXIC Group. The company was established in May 1994 and has a rich experience in container industry for over 20 years already.

CXIC locates in Changzhou, Jiangsu Province, a city close to Shanghai, in place of the most important economic center and port city of China. The company has superior geographical advantage and a convenient transportation network, which makes the container delivery not only to Shanghai area, but also the developing river ports along Yangtze River, such as Nanjing, Zhenjiang, Zhangjiagang, Nantong and Taicang. CXIC mainly produces various types of ISO Sea Freight Dry Cargo containers and also has the capability to produce special Dry Cargo containers such as 45'HC container, Open Tops and Bulk Containers, etc. The company is equipped with a modern container production line with the annual capacity of 250,000 TEU (in two shifts).

As one of the pioneer container manufacturing companies in China, CXIC persists to improve and continuously innovating the producing facilities and craftsmanship. Since 1996, the company has been introducing various modern facilities to its production line in order to ensure the quality of its product. In 2018, CXIC has invested 350 million RMB to upgrade its workshops and facilities in accordance with the latest industrial standards. The upgraded new plant launches on March 31, 2019. The pre-treatment and cold fabrication stations in this new plant are fully automatic, and modernized robots are widely applied at its welding & painting stations. CXIC has been certified by BVQI for ISO 9001 Quality Assurance System. In addition, with the establishment of CXIC internal data network system and the application of the advanced management such as ERP, OA, it ensures CXIC to continuously improve the production quality and satisfy its clients.

With constant efforts and unremitting improvements over the years, CXIC has earned its reputation and trust from its clients through the excellent production quality, flexibility. “To Serve & To Satisfy” is the motto of CXIC. Today, CXIC can be seen as a rising star in the competitive container industry.

NINGBO XINHUACHANG INTERNATIONAL CONTAINERS CO., LTD. (NXIC)

宁波新华昌运输设备有限公司（宁波新华昌）于2002年8月开始建设并于2003年3月正式竣工投产。2017年3月31日位于原北仑区大港工业城的老厂区生产线正式实施整体搬迁，于2017年5月18日正式投产。迁建项目总投资5亿元人民币。

宁波新华昌主要生产各种国际标准海运干货集装箱、45英尺箱以及开顶箱等集装箱产品。宁波新华昌的生产流水线由新华昌集团凭借多年的集装箱生产经验自行设计，综合来自于各方面的合理意见，拥有业内较为先进的智能化工装设备和水性漆生产线，其布局科学合理，生产高效灵活，设计年生产能力达250,000TEU。

宁波新华昌座落在浙江省宁波经济技术开发区，区域位置非常优越，与宁波舟山港下属各集装箱码头的距离在8-22公里之间，与宁波地区各主要集装箱场站的距离在3-15公里之间。宁波舟山港是中国华东地区的重要海港和进出口货物集散地。依托江浙两省强劲的经济增长态势和巨大的出口商品加工基地，该地区对于集装箱的需求量非常巨大。

作为新华昌集团下属的第二家标准集装箱生产企业，宁波新华昌沿袭新华昌集团“以人为本”的管理理念，强化管理细节，提高员工素质，从而组建了一支稳定、精干、高效的管理队伍。宁波新华昌率先在新华昌集团内部全面推广质量管理QMS系统，MES系统，使得宁波新华昌成为集团成功运行数据网络系统的典范。宁波新华昌同样于2004年顺利通过BVQI关于ISO9001的质量保证体系认证。

Ningbo Xinhuchang International Containers Co., Ltd (NXIC) was established in 2002 and put into production in March 2003. On March 31, 2017, the production line at the old factory area in Dagang Industrial District was officially relocated, and resumed production on May 18, 2017. The total investment in the relocation project was 500 million RMB.

NXIC mainly produces ISO Sea Freight Dry Cargo Containers.45-foot containers, and open-top containers. The production line of NXIC was designed by CXIC Group based on years of container production experience, incorporating reasonable suggestions from various sources. It is equipped with advanced intelligent handling equipment and water-based paint production lines, featuring a scientifically rational layout, efficient and flexible production, with an annual design production capacity of 250,000 TEU.

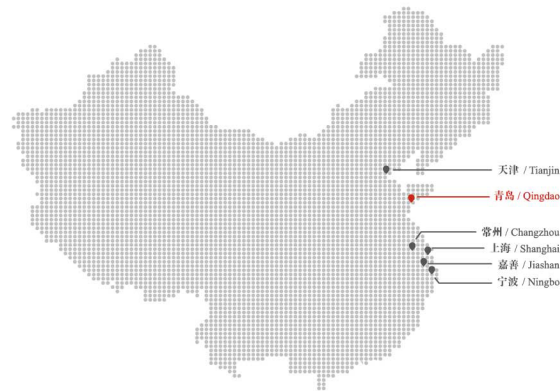

NXIC is located in Ningbo Economic and Technological Development Zone, Zhejiang Province, with a strategically advantageous location. It is within 8-22 kilometers from various container terminals under Ningbo Zhoushan Port and 3-15 kilometers from major container yards in Ningbo. Ningbo Zhoushan Port is an important seaport and hub for import and export cargo distribution in eastern China. Leveraging the strong economic growth momentum and vast export processing base in Jiangsu and Zhejiang provinces, the region has a huge demand for containers.

As the second standard container production enterprise under CXIC Group, NXIC adheres to the management philosophy of "people-oriented", strengthens management details, and improves employee quality, thus forming a stable, efficient, and effective management team. NXIC was the first to comprehensively promote quality management QMS and MES systems within CXIC Group, making it a model for the successful operation of data network systems within the group. NXIC also successfully passed the BVQI ISO9001 quality assurance system certification in 2004.

## QINGDAO XINHUACHANG INTERNATIONAL CONTAINERS CO., LTD. (QXIC)

青岛新华昌集装箱有限公司（青岛新华昌）是由新华昌集团有限公司于2006年7月组建的中外合资企业，公司于2007年4月份正式投产。公司投资5000万美元。

青岛新华昌主要生产各种国际标准海运干货集装箱，并有能力生产各种特种干货集装箱。生产流水线是由新华昌集团凭借多年的集装箱生产经验自行设计的，其工装布局将充分结合本地区集装箱需求，融会新华昌集团一贯高效的质量控制手段，采用先进的生产设备和检测设备，设计年生产能力达200,000TEU。

青岛新华昌位于青岛胶州市，东距青岛港35公里，南离黄岛前湾港25公里，多条铁路专线横贯境内，公路网络纵横交错，交通优势十分明显。

Qingdao Xinhua Chang International Containers Co., Ltd. (QXIC) is a joint venture established by CXIC Group in July 2006, and officially started production in April 2007. The total investment on the project was 50 million US dollars.

QXIC mainly produces various ISO Sea Freight Dry Cargo Containers and has the capability to produce various types of special dry cargo containers. The production line was designed by CXIC Group based on years of container production experience, with the layout tailored to meet the local demand for containers, incorporating CXIC Group's efficient quality control methods. The production facility is equipped with advanced production and testing equipment, with a designed annual production capacity of 200,000 TEU.

QXIC is located in Jiaozhou City, Qingdao, 35 kilometers east of Qingdao Port and 25 kilometers south of Huangdao Qianwan Port. It is traversed by multiple railway lines and has a well-developed road network, enjoying significant transportation advantages.

## 天津新华昌 | TXIC

天津新华昌运输设备有限公司（天津新华昌）是由新华昌集团有限公司在天津市宁河县经济开发区投资控股的一家中外合资企业，2007年9月注册成立，项目总投资超6亿元人民币。

天津新华昌主要生产各种ISO国际标准海运干货集装箱和IMO不锈钢罐式集装箱。其中标箱生产线于2012年3月正式投产，此生产线由新华昌集团凭借多年的集装箱生产经验自行设计，并采纳来自各方面的合理意见，在传统的工艺布局上有很多的突破，更体现“人性化”的理念设计思路：生产线装备和工艺，更多考虑了降低劳动强度、改善工作环境、安全性等方面。其布局科学合理，生产高效灵活，设计年生产能力200,000TEU。

首批罐式集装箱样箱于2010年1月完成，并于同年3月在德国通过冲击测试。秉承集团自主创新的理念，不断研发新技术、新工艺、新产品，先后取得86项专利成果，T1-T22 系列罐式集装箱设计年生产能力6000台。

天津新华昌是新华昌集团在渤海地区最大的综合生产基地。它的设立，使得新华昌集团的生产布局更趋完美和合理，能够向客户提供更多的交箱地点选择。

Tianjin Xinhuchang International Containers Co., Ltd. (TXIC) is invested by CXIC Group in Ninghe Economic Development Zone, Tianjin. It was registered and established in September 2007.

TXIC mainly produces various ISO Sea Freight Dry Cargo Containers and IMO stainless steel tank containers. The standard container production line was officially put into operation in March 2012. This production line was designed by CXIC Group based on years of container production experience and incorporated reasonable suggestions from various sources. It made many breakthroughs in the traditional process layout, embodying a design concept that emphasizes humanization: the equipment and processes of the production line consider reducing labor intensity, improving working environment, and enhancing safety. With a scientifically rational layout, the production line is efficient and flexible, with a designed annual production capacity of 200,000 TEU.

The first batch of tank container prototypes was completed in January 2010 and passed impact tests in Germany in March of the same year. Adhering to the concept of independent innovation, the company continuously develops new technologies, new processes, and new products, and has obtained 86 patent achievements. The design annual production capacity of the T1-T22 series tank containers is 6,000 units.

TXIC is the largest comprehensive production base of CXIC Group in the Bohai Sea region. Its establishment makes the layout of CXIC Group more complete, providing customers with more options for container delivery locations.

## JIASHAN XINHUACHANG INTERNATIONAL CONTAINERS CO., LTD. (JXIC)

嘉善新华昌集装箱有限公司（嘉善新华昌）成立于2009年7月，主要生产特种干货集装箱、办公用箱、散货箱等各类特种集装箱和标准集装箱。设计年生产能力达180,000TEU。

嘉善新华昌位于浙江省嘉兴市嘉善县魏塘镇里泽工业园，距苏州70公里，上海60公里，杭州80公里，地理位置优越，交通运输便利。

嘉善新华昌以现有的生产技术为依托，通过对内进一步完善现代企业管理制度，加大科技投入，充分运用现代高新科技成果，努力提高产品的科技含量和生产的自动化程度，引进关键技术和设备，提高企业的装备水平和生产效率，积极拓展和培育国内外各种特种集装箱市场；对外则充分利用新华昌集团在国际集装箱行业中已建立的广泛业务联系，进一步拓展企业在国际市场上特种集装箱产品的销售渠道。

Jiashan Xinhua Chang International Containers Co., Ltd. (JXIC) was established in July 2009, mainly producing various types of special containers such as special dry cargo containers, office containers, and bulk containers, as well as standard containers. It has a designed annual production capacity of 180,000 TEU.

JXIC is located in Lizhe Industrial Park, Weitang Town, Jiashan County, Jiaxing City, Zhejiang Province. It is 70 kilometers from Suzhou, 60 kilometers from Shanghai, and 80 kilometers from Hangzhou, enjoying a superior geographical location and convenient transportation.

Relying on existing production technology, JXIC further improves modern enterprise management systems internally, increases investment in technology, fully utilizes modern high-tech achievements, strives to enhance the technological content of products and the automation level of production. It introduces key technologies and equipment to improve the equipment level and production efficiency of the enterprise, actively expands various special container markets both domestically and internationally.

## CXIC WANLONG SPECIAL CONTAINERS CO., LTD. (CXIC-WANLONG)

江苏万隆特种货柜有限公司（新华昌万隆）是新华昌集团下属的控股子公司，是经江苏省科学技术厅认定的高新技术企业，主要生产符合ISO1496/3国际标准和《国际海运危险货物规则》IMDG标准的特种集装箱。公司座落于长江三角洲的江苏省常州市遥观镇，水陆交通便捷。公司拥有国内一流专业技术人员和先进生产加工设备，占地面积40000多平方米。是国内最早研制、开发并批量生产各种特种集装箱的重点企业。

目前，新华昌万隆在特种集装箱产品上拥有多项国家实用新型专利：散装物料罐式集装箱、罐式集装箱、联结式集装箱、重质货物集装箱、一体式储罐集装箱和罐式集装箱罐体总成。

新华昌万隆研制生产的GX22型散装水泥、粉煤灰罐式集装箱大量应用于长江三峡工程，目前该产品在国内市场占有率达90%以上，并已出口世界各地并深受客户欢迎。另外研制开发的LQ3型沥青罐式集装箱属国内首创，该产品已被列入中国《政府（集团）采购指南》首批优质产品推荐目录，并成功应用于津沈、沪杭高速公路的铺设建设中。

1999年公司开发成功了用于装运有毒、有害、易燃、易爆、有腐蚀性化工产品的IMO型不锈钢式集装箱填补了国内空白，该产品的开发改变了我国目前液态化工危险产品常用小包装的运输方式，有利于降低成本、保障货物安全、减少环境污染、实现一体化的多式联运并与国际接轨，从而引起我国液化化工危险品运输方式的一场革新。

2003年，公司成功建立并取得了ISO9001质量管理体系认证。2006年，新华昌万隆取得“移动罐柜的压力容器生产许可证”，进一步拓展了市场空间，提升了产品技术层次。目前，新华昌万隆已与众多高校和科研机构建立了“产、学、研”全面合作关系，进一步加强企业新产品研发实力。

Jiangsu Wanlong Special Containers Co, Ltd. (CXIC-Wanlong) is a holding subsidiary of CXIC GROUP CONSTAINERS CO., LTD. It is a high-tech enterprise approved byJiangsu Science and Technology Bureau with the major production of ISO 1496/3na-tional standardization and IDG CODE standardization special containers.CXIC-Wan-glong is located in Yaoguan Town, which is the east gate of Changzhou.Jiangsu Province with convenient transportation access. The company is one of thepioneering enterprises in China that develop and manufacture various kinds of specialcontainers.

At present, CXIC-Wanlong has many types of patent certifications such as BULKTANK CONTAINER, TANK CONTAINER, COMBINED CONTAINER, WEIGHTYCARGO CONTAINER,INTEGTATED SILO CONTAINER and ASSEM-BLY OFTANK CONTAINERS.

CXIC-Wanlong' s product GX22 TYPE TANK CONTAINER FOR BULK CEMENT/COAL POWDER has made an important contribution to Yangtze River Three-Gorgesproject. Currently it occupies more than 90% shares of shares of domestic market. anda significant quantity has been exported to many countries and regions. Another productLO3 TYPE TANK CONTAINER FOR BULK BITUMEN was first developed byCXIC-Wanlong.It has been featured in the catalog of National Excellent ProductPurchasing Guide and has been successfully used in the construction of Tianjin-Shen-yang Express-way and Shanghai-Hangzhou Express-way.

In 1999 CXIC-Wanlong successfully developed IMO TYPE STAINLESS STEELT-ANK CONTAINER for hazardous chemical materials, which was the first of its kindin China. It can be used to keep the goods safe, reduce the packaging and transportationcost, minimize the environmental pollution and realize the integration of intermodaltranspor-tation. It was an innovation in transportation for dangerous liquid chemicamaterial in China.

In 2003,CXIC-Wanlong successfully achieved ISO9001 Quality Assurance System-Certification.IN 2006,CXIC-Wanlong obtained the production license of mobilepres-sure tank, which helped us to expand the market and further advanced thetechnology. At present, the company has established a cooperative relationship withmany universities and educational institutions in order to enhance the competence ofproduct development.

## 基本数据 | Basic Data

成立时间	1994 年 1 月	Establishment	January, 1994
主要产品	罐式集装箱，特种干货集装箱	Main Products	Portable Tank Containers, Special Dry Bulk Containers
生产线	1条	Production Line	One Line
生产能力	年产 18,000 TEU	Production Capacity	18,000TEU Annually
员工	总员工数量为 438 名，其中包括： 300 名合格的生产线工人 88 名管理人员 50 名技术人员	Staffs	438 staffs in total, including: 300 qualified on-line workers 88 administrative personnel 50 experienced technical engineers
面积	总占地面积 40,000 平方米，其中： 生产车间占地 15,000 平方米 集装箱堆场占地 20,000 平方米	Areas	Total Area: 40,000m <sup>2</sup> , including: Workshop: 15,000m <sup>2</sup> Container Yard: 20,000m <sup>2</sup>
质量保证体系	ISO9001:2015 （经CCS认证） CE标准：EN1090-1:2009+A1:2011（经LR认证） ASME U C1、C2压力容器制造许可	Quality System	ISO 9001:2015 certified by CCS CE Standard : EN1090-1:2009 + A1:2001 certified by LR ASME U Pressure Vessel C1,C2
临近主要港口	距离	Main Ports Nearby	Distance
张家港	60km	Zhangjiagang	60km
镇江	80km	Zhenjiang	80km
南京	120km	Nanjing	120km
南通	160km	Nantong	160km
上海	180km	Shanghai	180km

## 数字化 | DIGITALIZATION

### 新华昌 数位化办公协同系统（OA） CXIC Digital Office Collaboration System

新华昌集团携手国内顶级办公协同软件厂商，从支持企业管理协同、提高办公效率、加快工作流程处理、快捷信息交互方式、高效决策支持等方面入手，采用集团统推统建模式搭建了集团到工厂的统一的数位化办公协同平台。系统推行以来，不仅实现了跨区域、跨部门、跨设备之间的工作协同，也实现了公司10多个管理场景的建模，从集团到工厂300余条流程的搭建和使用，完成了ERP、报表平台、招标平台等异构系统的实时对接，已经成为了集团和工厂共同依赖的核心管理系统。系统的成功部署使集团在从提升工作效率、优化管理决策、降低运营成本、增强企业竞争力等多方面获益。

CXIC Group, in collaboration with a leading domestic office collaboration software provider, has established a unified digital office collaboration platform from the group to the factory, focusing on supporting enterprise management collaboration, improving office efficiency, accelerating workflow processing, facilitating quick information exchange, and providing efficient decision-making support. Since the system's implementation, it has not only achieved work collaboration across regions, departments, and devices but also modeled over 300 processes for more than 10 management scenarios within the company. It has seamlessly integrated heterogeneous systems such as ERP, reporting platforms, and bidding platforms in real-time, becoming a core management system relied upon by both the group and the factories. The successful deployment of the system has brought various benefits to the group in terms of improving work efficiency, optimizing management decisions, reducing operating costs, and enhancing competitiveness.

### 新华昌 企业资源计划系统（ERP） CXIC Enterprise Resource Planning System

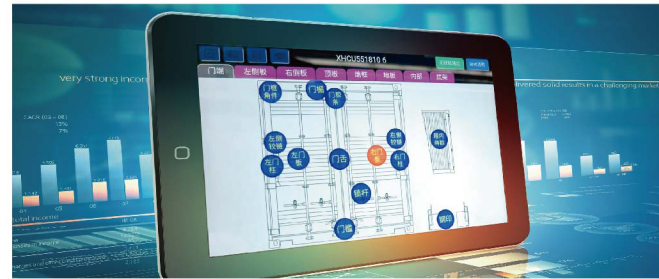

集团借助数字新华昌项目的启动与国内ERP市场占有率第一的软件供应商合作，成功上线了新华昌ERP系统，实现了集团在产品的设计、采购供应、生产制造、质量控制、市场销售、客户服务、财务管理等方面的统一规划、管理、配置和协调。该系统的构建实现了多项集团管理目标。1.升级为集团一体化平台、2.集团主数据管理标准化、3.业务流程标准化统一、4.财务业务一体化、5.人事系统升级扩展、6.达成初步的集团数据分析能力。作为数字新华昌项目的重要成果之一，新华昌集团借助ERP系统这种数字化的高效的管理工具，提升了集团的管理水平和效率，降低集团和工厂的成本，也为更好的提升客户服务提供了支持。

Leveraging the initiation of the Digital CXIC Project and in collaboration with the top domestic ERP software supplier, CXIC Group has successfully launched CXIC ERP system. It has achieved unified planning, management, configuration, and coordination for the group in areas such as product design, procurement, production, quality control, market sales, customer service, and financial management. The construction of this system has achieved multiple management goals for the group, including upgrading to a group integrated platform, standardizing group master data management, unifying business process standardization, integrating financial operations, upgrading and expanding personnel systems, and achieving preliminary group data analysis capabilities. As one of the significant achievements of Digital CXIC Project, CXIC Group has elevated its management level and efficiency, reduced costs for both the group and the factories, and provided support for better customer service through the digitized and efficient management tool of the ERP system.

### 新华昌 新箱管系统 CXIC New Container Management System

新华昌新箱管系统基于新华昌首创的集装箱二维码识别方式，以物联网（智能卡口、车号识别、箱号识别和智能终端等）+互联网为核心技术，打造出集装箱行业的示范性系统，系统实现从客户合同(订单)签订通知单开始一直到交箱完成的全流程管控，提高箱管流程的整体效率。系统功能涵盖，系统基础配置管理、生产管理、交付管理、场地管理、运输管理、关务管理、费用管理等多个模块。

Based on CXIC's innovative container two-dimensional code recognition method and core technologies such as the Internet of Things (IoT) (smart checkpoints, vehicle number recognition, container number recognition, and smart terminals), CXIC New Container Management System has been developed to become a demonstrative system in the container industry. The system covers the entire process control from customer contract (order) signing to container delivery completion, enhancing the overall efficiency of container management processes. Its functionalities include basic configuration management, production management, delivery management, site management, transportation management, customs management, cost management, and more.

### 新华昌 MES系统（MES） CXIC Manufacturing Execution System

新华昌集团携手国内顶级办公协同软件厂商，从支持企业管理协同、提高办公效率、加快工作流程处理、快捷信息交互方式、高效决策支持等方面入手，采用集团统推统建模式搭建了集团到工厂的统一的数位化办公协同平台。系统推行以来，不仅实现了跨区域、跨部门、跨设备之间的工作协同，也实现了公司10多个管理场景的建模，从集团到工厂300余条流程的搭建和使用，完成了ERP、报表平台、招标平台等异构系统的实时对接，已经成为了集团和工厂共同依赖的核心管理系统。系统的成功部署使集团在从提升工作效率、优化管理决策、降低运营成本、增强企业竞争力等多方面获益。

CXIC Group, in collaboration with a leading domestic office collaboration software provider, has established a unified digital office collaboration platform from the group to the factory, focusing on supporting enterprise management collaboration, improving office efficiency, accelerating workflow processing, facilitating quick information exchange, and providing efficient decision-making support. Since the system's implementation, it has not only achieved work collaboration across regions, departments, and devices but also modeled over 300 processes for more than 10 management scenarios within the company. It has seamlessly integrated heterogeneous systems such as ERP, reporting platforms, and bidding platforms in real-time, becoming a core management system relied upon by both the group and the factories. The successful deployment of the system has brought various benefits to the group in terms of improving work efficiency, optimizing management decisions, reducing operating costs, and enhancing competitiveness.

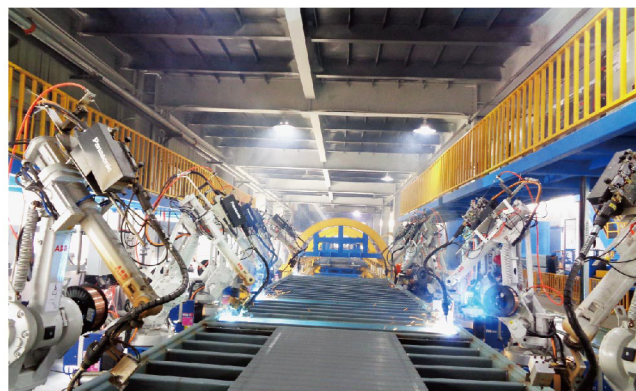

## 绿色环保（节能降耗） | GREEN ENVIRONMENTAL PROTECTION (Energy Conservation and Consumption Reduction)

### 环保净化设施 全面升级

Comprehensive Upgrade of Environmental Protection and Purification Facilities

集团旗下六家工厂均已完成环保净化设施的全面升级。目前生产线不仅对粉尘、焊接烟尘、油漆喷涂挥发性有机物（VOCs）以及漆雾净化循环水等污染源的收集和净化实现了全覆盖，而且所配套的净化设备全部采用了行业目前最先进的技术和工艺。经过环保设施净化处理，污染物的排放浓度普遍低于国家允许排放标准的50%以上，极大地降低了生产对环境的负面影响。

All six factories under the group have completed the comprehensive upgrade of environmental protection and purification facilities. At present, the production line has achieved full coverage of collection and purification of dust, welding smoke, volatile organic compounds (VOCs) in paint spraying, and circulating water purification of paint mist. Moreover, all the supporting purification equipment have adopted the most advanced technologies and processes in the industry. After purification treatment by environmental protection facilities, the emission concentration of pollutants is generally lower than 50% of the national allowable emission standards, greatly reducing the negative impact of production on the environment.

### 生产数据 自动采集输送

Automatic Collection and Transmission of Production Data

为随时了解掌握生产线的实时运行现状，集团各生产线对生产车间各工段班组的效率和产量、产品质量、设备运行参数、水电气能耗等数据采用了远程采集及无线自动传输。实时工况和生产运行数据自动收集汇总至生产指挥中心，为全面提升生产现场管理水平，完善精益化管理细节，提供了更准确及时的数据支撑。

To keep track of the real-time operational status of the production line, the group has adopted remote collection and wireless automatic transmission of data such as the efficiency and output of each shift in the workshop, product quality, equipment operation parameters, and water, electricity, and gas consumption. Real-time working conditions and production operation data are automatically collected and summarized in the production command center, providing more accurate and timely data support for comprehensively improving the management level of the production site and improving the details of lean management.

### 节能降耗 技术应用普及

Popularization of Energy-saving and Consumption-reducing Technologies

伴随着生产线工艺装备的智能化升级，集团在绿色生产和节能降耗方面取得了长足的进步。例如，高能耗空压机站设备采用了智能运行系统，同时与用气量最大是工位实现了自动监测和数据实时反馈，有效提高了能源利用率。此外，生产线大功率设备的智能开闭，工艺装备高低速自动运行控制等智能技术的应用普及，将生产作业与设备运行有机结合，降低了设备空载的无效浪费，全方位提升了节能效果。

With the intelligent upgrading of production line equipment, the group has made considerable progress in green production and energy-saving and consumption reduction. For example, high-energy-consuming air compressor stations have adopted intelligent operating systems, which can automatically monitor and provide real-time feedback on the maximum air consumption position, effectively improving energy utilization. In addition, the popularization of intelligent technologies such as intelligent opening and closing of high-power equipment on the production line and automatic operation control of high and low speeds of process equipment has organically combined production operations with equipment operation, reducing invalid waste of equipment idle load and comprehensively improving energy-saving effects.
